More than 35 years of legacy

Listed on the Stock Exchange

13 Manufacturing Plants

4000+ Employees

150 Million USD+ in Revenue

VISAKA INDUSTRIES OPERATES IN THE FOLLOWING BUSINESSES

Fibre cement boards

India's largest player

Textiles

The largest Twin Airjet spinner in the country

ATUM

India's first electric roof

Cement Roofing Sheets

India's second largest player

WE CARE ABOUT THE ENVIRONMENT

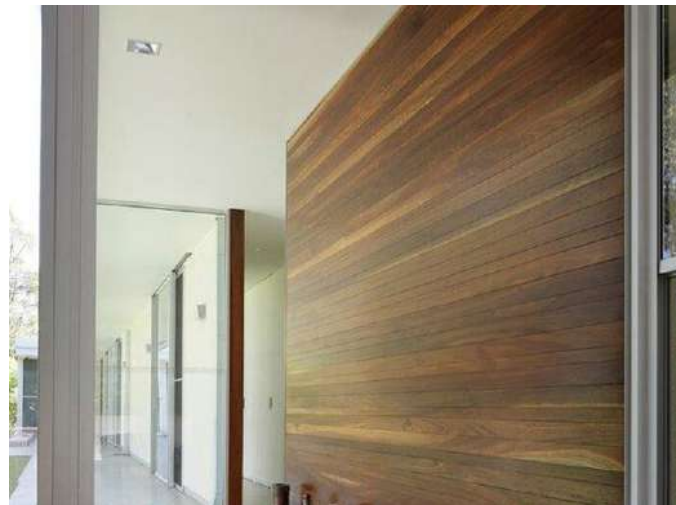

Our credibility and 30 years of experience in 'Roofing' and 'Sustainable Building Materials' is helping us innovate and solve global challenges such as climate change.

Vnext

Vnext is a brand with numerous interior and exterior applications that can be substitutes for Plywood, Gypsum boards, WPCs and even concrete brick walls.

We're one of the first companies to be rated by CII IGBC as GreenCo in Fibre Cement Board manufacturing and the only company to be rated as GreenPro by CII IGBC. We're also rated by international agencies such as TUV, Exova Warrington and QAI- USA.

Vnext - Products

Vnext Boards

A fibre cement board substitute to plyboard and Gypsum boards for interior applications.
Used for wall panelling, false ceilings, kitchen cabinets, shelves/wardrobes.

Vnext Premium Boards

These are exterior grade, weather resistant boards.
Used for external cladding, duct covering, roof underlay, garden fencing and external facade.

Vnext Premium Planks

These are exterior grade, weather resistant designer boards.
Used for external cladding, duct covering, roof underlay, garden fencing and external facade.

Vnext Panels

Instant dry wall construction solution.
Used for internal partition, prefab and external walls.

Vnext Infill

A durable, fire and water resistant solution; affordable construction techniques used with Vnext premium boards. A typical 2BHK house can be constructed by 5 people within 45 days from foundation to finish.

only
**Electric
Roof**
from
INDIA

First integrated
roof that
generates power

Min. 20% more power
generation compared
to conventional panels
in the same space

Can take live
load of more
than 600 kgs

Roof will generate
power for more
than 25 years

A roof that earns
for you- With a
payback of 5 years!

Roof lifespan
of over
45 years

Creates more space
& offers energy
independence

Increases the value of
your property

Can be monitored
through an app

Is fire, water and
termite resistant

Generates more
power even when
placed facing north

Reduces the
temperature by 2-3
degrees from the
top of the roof
